Please indicate on the second page if you want to play in a SCRAMBLE format on the following Tuesday. If there are enough of you that want to play I will make arrangements. We also have a wonderful new course now open just 10 miles south of us. It belongs to the Oregon Golf Association [O. G. A.] of which I am a member. The Course is built in the middle of a Filbert Orchard and is very challenging. I think I might be able to get a few of us on for Wednesday if your not too tired. It would be a great round of golf. I will prepare the foursomes and hand them out at the cocktail hour. Will try to get everybody in different groups than we will be in on our June outing so that we may have a chance to visit with different partners.
