

# WPA PROJECT NUMBER 31

June 25-27, 2000

Much to the amazement of many of us, WPA lasted into the 21<sup>st</sup> century with the completion of project number 31. We returned to where we started, Similk Beach Golf Course. Vi and Jack Frisk hosted us at their home and we dined at the Cranberry Tree in Mount Vernon. Monday, 27 of us defied the golf gods at Similk Beach while a contingent of women attacked the stores of La Conner. Tuesday, 20 of us returned to Similk Beach and tried 9 holes of scramble.

Don West shot an 82 to win low gross; Gene Maxim and Jack Frisk shared the low net sandbagging honors. Celia Thompson topped the women and Aurelia Odell had low net.
