

WPA Project Number 32

September 10-12, 2000

Dick and Nell Hollingsworth really outdid themselves for an outstanding WPA event. From cocktails in the great clubhouse and a dinner to match; to play on an outstanding golf course; to a wonderful lunch at Hollingsworth's home on the fairway; to a great game of scramble on Tuesday; it was all wonderful. Weather was almost hot. Maybe that accounted for our game being a little above normal. Collectively, we had a 5 under round. If we counted the guests scores too, we would have knocked off another stroke.

The old master, Don West, was hard pushed this time, but his 70 topped all scores. But he better look out because there were 5 others within five strokes of his 70. Morris Warnecke liked the sunshine and carded a low net of 61, with no one else close.. Is there any truth to the rumor that Morris spent the summer with Hollingsworth's so he could practice for this event?

Women's winner was Aurelia Odell with a low net of 35.

Four new members joined us: Jack and Jeanne Fankhouser and John and Alice Owen. Welcome to our group. We also had guests, the Carlsons, the Melvilles and the Simantels. Hopefully they will join us as members also.

One of these days, I'll get around to putting our records into the machine. Our new record for houses hit went begging. No one owned up to hitting a house.
