

## W.P.A. Project Number 35

Quail Ridge Golf Course

June 9-11, 2002

It was a great time. Yes, it sprinkled a little for 2 holes, then turned nice and we kept shedding our outer wear. There were a few of little faith who decided not to play. We will deal with them in the fine section.

Pat and Altamae Whitehill did a wonderful job. Sunday afternoon at their house was great. Sunday night at Quail Ridge for a fine dinner. Nothing but raves for Altamae's tour guide work for the non-golfers. Thanks to both of you.

Don West may have a new hip since Project Number 34 but it didn't slow him up. He shot a gross 79 and a net 78 to take both low gross and low net. Maybe some of the rest of us ought to get a new hip.

Colleen Carlson had low gross for the women and Cay Bell had low net. Good show. The men started out sensationly with a group 3 under performance for the first nine holes. We faltered a bit and ended up 2 under for the 18.

An update on our last minute cancellations:

No word at this point on Betty Maxim. Hope her bronchitis has departed

Dick Hollingsworth has an aneurysm., nasty stuff not to be fooled with. He has been sent to Oregon Health and Sciences University and a Professor of Vascular Surgery will work him over. On Wednesday June 26 he will have another angiogram and they will block off the part of the artery that goes to the butt. Then the next day they will go in and insert a stent and do a partial graft. Then he hopes to get ready for the next WPA.

Howard Odell has shingles. They have been doing some other tests but results were not in as of our last contact. If the pain is from the shingles, Howard says he can live with that. He just hopes there is not anything else involved.

GET WELL QUICK YOU GUYS. WE MISS SEEING NELL AND AURELIA. Gene
