

W.P.A. Project Number 38

Echo Falls Golf Course

September 7, 8, 9, 2003

WOW, what a party. The Carlson's, Colleen and Mike really went all out. A great get together Sunday, some wonderful guests, and a great innovation, the Monday night barbeque – BYOM – bring your own meat. Many said this was the best social event we have had in a long time. There was time to visit and get to know or catch up on our other members and to celebrate Lois Melville's 80th birthday.. It was a great job. We also had the privilege of welcoming 3 new couples to our membership on the spot, the Krooks, Ohlsens and Parkers. Thanks Colleen and Mike.

Then there was golf. Just as players started to peel some of the layers of clothes, the rains came, suddenly drenching everything. The course became unplayable in about 10 minutes. So we had an abbreviated nine hole event. As a group, a 2 under was a most respectable score for 9 holes. Low gross went to Don West, low net was shared by Matt Wright, Dick Robinson and Paul Chaplik. Low gross for the women went to Sally West and low net to Lois Melville.

Scramble on Tuesday resulted in a 3 under performance by the team of Cay Bell, Wanda Robinson, Lois Melville and Don West at the Blue Boy Golf Course. (Hint: if you want to win at scramble, get on the team Lois Melville is on. She has been on the winning scramble team 3 times in a row)

THE RESULTS

Name	Par	Shot	Hole	Par	Shot	Name
West, Ohlsen	4	5	1	4	4	Robinson, Wright, Parker
Parker, West, Krook	4	5	2	4	4	Chaplik, Robinson, Parker
Fankhauser, Melville						
Carlson,						
Wright, Odell	4	5	3	4	4	Bell, Chaplik, Parker
Wright, West	5	5	4	5	5	West, Ohlsen, Parker, Carlson
						Melville, Robinson
Ohlsen	3	2	5	3	3	Parker
Ohlsen	5	5	6	5	4	Robinson
Krook	3	3	7	3	3	Robinson, Ohlsen
Carlson, Parker, West	4	5	8	4	3	Chaplik
Thompson	4	4	9	4	4	West,

Wash out at 9 holes

After Careful Analysis, some rather startling things have been discovered. It seems the suggestion that our rain outs were caused by rain dances or lack thereof doesn't answer the question. Location doesn't seem to make a difference. They have occurred in both the spring and the fall.

However, names seem to make a difference. We have had scares with the W's. Bob Warnecke had rain right up to tee time. Whitehill's had a couple of holes of rain before turning into a pretty nice golf day. Of course, Morris and Madeline Warnecke had nothing to do with rain.

But the real problem seems to lie with the C's. We have never had sun with a C as Project Manager. Cribby's had cloudy and windy weather and we barely escaped the rain. Chappell's had a cloudy threatening day. Chapliks had 2 days of steady rain. Carlsons had a wash out after 9 although scramble the next day was O.K.

Since the Cribbys and the Chappells are no longer with us that leaves only the Chapliks and the Carlsons. The best solution would seem to change their names and look carefully at new members whose names begin with C. Henceforth, when Carlsons are Project Managers they shall be the Karlsons. When the Chapliks are Project Managers they shall be the Shapliks.

We will give the W's one more time and see what happens next fall when B&B Warnecke are Project Managers.

This research has been done in the WPA tradition and will be filed in the archives.
