

REPORT FOR WPA PROJECT #3, AUGUST 3-4, 1986
 Tumwater Valley Golf Course, Tumwater

WPA Project 3 came close to being a real stinker. However, the maintenance men at the Tyee got hot water in time for showers. Project Manager Jack Bracy did a superb job as did wife Peggy. Our membership grew by one with the addition of Bill Brock and wife Mary Lou (kennewick)

There were some unusual happenings on the golf course. Four Jacks (Bracy, Green, Newall and Frisk) got confused (again?) thinking they were taking a test they all go 100. No, 100 is not a perfect score in golf so each is to be assessed \$1 as a test fee. We agreed that a new record would be the most balls in the river. Roy O'Neil won with 2. Because he also hit 3 into the pond, we'll waive the \$1 so he can get balls for the next event. Bill Brock is assessed \$1 for being in the river first, on #1. Most of you didn't even realize there was a river on #1. Jack Bracy noticed yours truly throw a club and insisted on a record. Bob Rose came to the rescue with 2 throws. \$1 Bob.

Winner was Chuck Cribby with an 83. Congratulations. Chuck and Bobby will be our hosts next spring in Sequim.

Changes. Some people have indicated an interest in coming in a day early and playing a practice round Sunday morning. Chuck Cribby will be asking you if you want reservations for Saturday and Sunday or Sunday only. You will be on your own to arrange games. Chuck will see about reserving tee times and will let you know later how it will work.

Several women have come out of the woodwork and have promised to play if the womens game is limited to 9 holes. So be it. Womens scores will be recorded for the first nine. (Of course, those who want can play the full 18, but only the front nine will be recorded). So we expect at least 2 foursomes of women at Sequim.

We're improving. As a group we were 1 under par, surpassing the even par at Sun Tides last Spring. Strangely our best was a bogey on #15, the number 14 handicap hole.
